MASONIC INTELLIGENCE

Jurisprudence.

DECISIONS OF THE GR.'. MASTER OF NEW YORK.

"I.—That a member of a Lodge U. D, if in affiliation with a warranted Lodge, within a reasonable time, and before the By-Laws of the warranted Lodge make the next installment of his dues—after the granting of the warrant to the Lodge U. D.—payable, must notify the warranted Lodge either in writing or orally in person and in open Lodge, of his intention to remain with the Lodge formerly U. D., and pay all of his dues up to that time, or he becomes liable to be struck from the roll for the non-payment of dues by the older Lodge, as prescribed by the laws of that Lodge, or the Constitution. That being thus stricken from the roll renders him non-affiliated in both Lodges. In view of this decision I recommended that a penalty be prescribed by this Grand Lodge, and inflicted upon Brethren who neglect their duties in this respect.

"II.—That when charges are drawn loosely or without sufficient certainty, and for either of these causes are dismissed by a commission, the accused is not thereby discharged from liability, but new charges may be preferred to the Lodge or to the Grand officers having jurisdiction, as jurisdiction is defined by sections 54, 60, and 62 of the Constitution. That as to mere clerical errors, or errors in dates, the charges can be amended before the commission on the motion of the complainant, or by action of the commission, who may, of their own volition, make the complaint conform to the facts; and if the accused should claim to be surprised by the motion, that time be given to him for the purpose of preparing his defense as to any newly added matter which he may assert that he was unprepared to meet.

"III.—That no proxy to represent a Lodge in this Grand Body can be appointed by the Master, or conjointly by him and the Wardens of a Lodge, during the recess of a Lodge; but that such an appointment must be made in open Lodge at a regular communication, if possible; but if not, then at an emergent communication after the members have been duly summoned for that specific purpose.

"IV.—That it is improper to propose a profane in a Lodge for "initiation and membership," he not being eligible to to such membership until he shall have become a Master Mason; that the proposition would be for initiation and *advancement;* and if the brother should receive the degrees, he can then, if there be no objection, sign the by-laws, and thus become a member of the Lodge; and that, hence, an objection to his so signing them can be entertained by the Lodge; and that, on the other hand, the brother cannot be compelled to sign them, there being no power in the Masonic law to enforce him to do so. I may here remark that I approached the decision of this subject with delicacy and deliberation; but the naked question was presented whether a Mason of any grade less than a Master Mason, or whether a profane, could be *elected*, in advance of receiving any degree, to membership in a Lodge. Believing this to be the privilege of a Master Mason alone, and that no other can be eligible to membership, and that a Lodge of Master Masons must be composed of such only, I, upon due consideration, decided the question as I have stated.

"V.—That during the interim between the return of a dispensation for the formation of a new Lodge to the Grand Secretary, and the application to the Grand Lodge for a warrant, the territorial jurisdiction of the Lodge U. D. still remains intact; and that it is a Masonic offense for any warrant Lodge to invade it by using any material in it.

"VI.—That a record of conviction for a felony, by a court having competent jurisdiction is *prima facie* evidence of the guilt of the Brother placed on trial before a Masonic commission, and is all the testimony that the prosecution is forced to produce in the first instance. That a party on such a trial should not be sworn as a witness on his own behalf, but must be permitted to make any statement which he may see fit, which should be reduced to writing and form a portion of the record of the trial. That the relevancy of all evidence offered on such a trial is a question for the consideration of the commission alone, and not to be touched in any manner, except advisedly and by request of the commission and parties, by any Grand Officer, no matter what may be his grade, except upon appeal, and certainly not during the pendency of the case. During the progress of the trial, no matter connected with it can be decided outside of the commission, unless all parties unite in asking the opinion of some proper official. The commission, may, in other words, authoritatively ask advice, if all parties consent, from those who (by law) are called upon to decide questions of jurisprudence. That in all cases where a Brother is charged with crime, and a record of conviction is produced in evidence against him, and he offers to prove his innocence to the satisfaction of the commission, that evidence should be received and he not be barred by the record; and that the prosecutor is at liberty when the record of conviction has been assailed by evidence, to introduce testimony to sustain the original charge stated in the record or contained in the specifications."

IOWA—GRAND MASTER PECK'S DECISIONS, 1866-67.

Query—A member is suspended for non-payment of dues. Within three or four months he pays the amount due and asks to be reinstated. Is a majority or two-thirds vote necessary for his reinstatement?

Answer—By reference to substitute for section XXXV, Grand Lodge By-Laws, you will discover that, if payment of the amount due at the time of his suspension is made within one year after his suspension, he is reinstated without a vote of the Lodge.

Query—A candidate is balloted for and rejected, and so declared by the W. M. After the Lodge closes, it is ascertained that a *non-affiliate* had been balloting, and, further, that said non-affiliate is unfriendly to the candidate. As there is but one black ball cast, it is supposed that it was by him. Can the ballot be declared null and void and a new ballot ordered at the next stated meeting?

Answer—No; but I consider that the circumstances would justify the granting of a dispensation for a new ballot, if desired, without waiting the prescribed six months.

Query—Some six months ago, A. B. applied for initiation, and, after the usual course, was elected. Before initiation, and before initiation, he learned that C. D. was a member of our Lodge, and as he was unfriendly with him, he (A. B.) said he did not wish to join any society of which C. D. was a member. There was nothing done for some months, and, in the meantime, A. B. openly expressed himself an atheist. About this time A. B. and C. D became fully reconciled, and A. B. now claims his initiation. We were ready to initiate him at one time, and he declined; now he is ready and I decline until I hear from you. What shall we do?

Answer.—A. B. has no special claims upon the Lodge simply because he, at one time, has been elected to receive the first degree. An objection to his initiation is just as valid up to the time of his being placed in due form and through expressed in the way of a black ball at the time of balloting, and should be so regarded by the W. M. If he has openly expressed himself an atheist, the idea of initiating him should not be entertained for a moment, for, "Agreeably to old land marks Institutes, no atheist can be made a Mason," and as soon as he has crossed the threshold of the preparation room he will be compelled to profess his belief in Deity or be permitted to retire.

Corn and Cotton.

The Yazoo City *Democrat* of the 19th, in the late excursion of its editor, made some interesting discoveries, which should not be confined to its own readers. We append some of its observations, which are "worthy of all acceptation:"

Some of the planters are prudently putting by far their greatest breadth of land in corn; especially is this the case among the smaller farmers. But many, alas! like desperate gamblers, are staking all on another chance in spite of past experience, and planting too much cotton. We confess a feeling of contempt for men whose greed, or weak understandings have been lured to destruction by the recent little rise in cotton. To be so bedeviled led by the apparent arts of speculators, places them beyond the pale of sympathy.—It occasions us some surprise and disappointment that no one is experimenting with the Ramie plant, which, to our mind, seems the greatest hope for the country.—We learn that nearly the entire stock of cattle and hogs in the swamps has been destroyed by thieving negroes.

BENJAMIN J. DAVIS, a maimed Confederate soldier, who was Clerk of the Superior Court for Lumpkin county, has been removed from office by Gen. Meade, for the crime of being Secretary of a Democratic Club!

Well, MEADE is poor stuff to begin with—a hybrid between soap-suds and metheglin.

—Grasshoppers in immense numbers have appeared in Texas. They are of unusually small size and are so numerous that they nearly cover the ground in some places. Powdered lime sprinkled over them kills them instantly.

AGRICULTURAL.

SELECTING AND PLANTING CORN.

A correspondent of the Albany (N. Y) *Country Gentleman*, who writes from Chester county, Penn., says it is the custom among farmers in his neighborhood to shell off both ends before planting, but for the last fifteen years he has planted the corn from the entire ear, and he says the result has been quite satisfactory. He has frequently heard it stated by his neighboring farmers that the grains from the tips would not come to perfection. He tried an experiment, the result of which he gives as follows:

"I marked out three rows—planted No. 1 with the seed from the points—No. 2, the middle—No. 3, the butts. No. 1 grew the largest stalks, finest ears and was out in tassel and silk first. No. 3 second—No. 2 last. So you see the middle came to maturity last. That shows that we have been following a bad practice in not planting corn from the whole ear, for in so doing I have increased my corn from two to three inches in length on the same soil, without extra manure. I have raised 100 bushels to the acre so; it makes the finest corn.

We gave to our readers, earlier in the season, a few observations relative to "seed corn" drawn from our own experience. They were almost entirely the reverse of the above statement, which without further explanation leaves us to conjecture. We designated the middle part of the ear as most certain, being the more perfect than grains at the butt or point. We will examine the recommendation so widely at variance with our own, and subject it to analysis. If the "three rows" were all alike, and there was no difference of soil, and they were planted and worked equally and at the same time, and any conclusion could be arrived at from No 1 growing "the largest stalks, finest ears and was out in tassel and silks first" no sane man, with such evidence before his eyes, would hesitate to select the imperfect and unfilled grains at the point of the ear for his seed corn, and if he could not get enough of that sort, take the grains at the butt, to eke out the required quantity—the more perfect part of the ear being reserved for feed, either for man or beast.

Let us look at this matter in another aspect. Were the three rows alongside of each other, and contiguous to other corn? If so, nothing is proved. The pollen or fructifying principle conveyed with it, from the tassel of the one being likely to fall upon the silk of, and impregnate the other. It is because of this tendency to mix and deteriorate into a miserable hybrid, that we advised the planting of one and the best variety. If different varities are planted, they should be so far separated that the wind cannot waft the pollen from one to the other. The experience of the correspondent of the *Country Gentleman* does not stand to reason, any more than that the smallest, meanest, most indifferent and ill-grown potatoes would make the best seed; for it is incontrovertible that the point of the ear is for the most part unsound, being from the nature of the husk most exposed to the weather, and rarely fills out. If the theory were correct, those most minute grains on the extreme point, in which scarcely any of the vivifying principle has ever existed, would be beyond all price for seed, securing the largest stalks, finest ears, and earliest in tassel and silk. We have thus taken the trouble to explain this matter, because we have seen the proposition we have examined, widely circulated, and believe it capable of doing much harm. The soundest, most perfect grains of corn are indisputably the best for seed, and they are not to be found at the butt or point of the ear, especially the former. We still claim that what is known as the "gourd seed" or long grain, is the best for planting, as it will give the most shelled grain to the ear.

FARMING.

Planters and farmers in this section are busily engaged in preparing the ground for seed, but we are sorry to say that, from present indications, too much space will be devoted to cotton, and not enough to cereals. Just here we wish to suppose a case that is not at all improbable: Every sensible man must know that our government is unstable and extremely shakey; many expect, and know one knows how soon a clash will come—everything national in its features seem engaged with bitterness and strife. If the impeachment of Andrew Johnson does not produce bloodshed, the chances are three to one that the November election will. Now suppose our people persist in cultivating large fields of cotton and stinted patches of corn and wheat, at the same time neglecting to see that their stock increases. Trouble ensues. We have plenty of cotton but no provisions. A repetition of the direful times of 1861 will follow a failure as safe. Suppose again, that only a small amount of cotton and a plentiful of provisions to be the result of farm labor this year and that no disturbance takes place. Nothing will have been lost, but everything to be gained. The people will be gained. The scarcity of cotton produces high prices; a full and ample supply of provisions induces cheap labor—the real wealth of any country. Facts are stubborn and our people would look them in the face, be fair and not pander to a hurtful custom simply because that custom has been a life long custom. Let cotton alone; become self-sustaining first, then go into the markets with your surplus—cotton—and demand your price. This common sense points this out as the road to follow. Will our people do it?—*Bolivar Bulletin.*

WHAT AN ILLINOIS FARMER IS DOING.

M. L. Sullivant, of Chatsworth, Livingston county, owns forty thousand acres of arable land, partly in Livingston and partly in Ford counties. On this land he has 320 miles of Osage-Orange hedge in thrifty condition. This year he will break up and put into cultivation 10,000 acres in addition to the broad area now sown, 3000 of which he will plant in corn, the balance in wheat and grass. For this work he has let by order with Gregory & Hastings, five stock commission merchants of this city, for the purchase of fifty pairs of oxen, and fifty mule teams, which will at once go forward to his plantation.

Mr. Sullivant last year found that one of his out lots was not yielding him the profit that he expected, so, a purchaser coming along one day, he sold him for cash 24,000 acres in Champaign county, in one body. Mr. John T. Alexander of Jacksonville, was the purchaser.

In relation to the profit of such extensive farming as Mr. Sullivant carries on we may say that rumor has it that his net income is from $60,000 to $80,000 a year from his agricultural operations, most of which he expends for widening the area of his vast possessions and for redeeming and improving the land acquired.—*Chicago Evening Post.*

TOO MUCH COTTON AGAIN.

There are indications that the recent rise in cotton has stimulated many planters again to try the experiment of making "big crops." The demand for field hands has increased since the rise, and we hear of preparations by men who lost by last years cotton planting to "pitch" largely for the staple again. The Atlanta papers report a sudden activity in the transportation of bacon south ward over the State Road, and some of them makes the suggestion that it is in consequence of the preparations by planters to make cotton largely this year. The burnt child, it is said, "dreads the fire." In this case we see grown up men, who have found out by experience that it will not do to buy bacon at present prices to feed hands engaged in the raising of cotton, again resorting to the hazardous attempt. If they had plenty of corn and bacon, the failure to make a cotton crop pay expenses would not be so serious an affair with them. But it does really seem to be time that our people had found out that the raising at home of their own provisions is a necessary prerequisite to the successful culture of cotton on a large scale, under the present circumstances We hope that better luck this time awaits those who have been induced by the rise in cotton to change their first resolution; but we shall be surprised as well as pleased if a large crop raised this year proves remunerative.—*Columbus (Ga.) Enquirer.*

We make the following notes from our Arkansas exchanges. The Fort Smith *Herald* says:

Sebastian county elected in 1866 the whole Radical ticket, and then the negroes did not vote, nor were there any persons disfranchised. This year, with over two hundred negro votes, they have carried the county for the Constitution by only fourteen votes.

The Arkadelphia *Standard* says:

From every section that we have heard from the white men have turned out almost en masse, and with but few exceptions have voted "against Constitution," while many of the negroes have not voted at all, and some have voted with the White Man's party. But few votes have been cast in the civil (?) box, and they almost exclusively by negroes. Scarcely twenty white men in this county have been so far lost to self-respect and decency as to take the required oath, and even many negroes, either because they could not take the oath, or because they could not stomach the candidates, refused to vote except on the Constitution.

The Searcy *Record* feels good over the result, and lets off the following frolicksome epigram on

THE ELECTION.

The Rads in Searcy counted votes,
And here we give their figures,
Three whites, six negroes and two bags,
One Dutchman, thirty nigers!

The negroes did not generally vote in Searcy, although invited to do so. The *Record* says:

Notwithstanding this invitation, but thirty-five out of nearly one hundred of them voted.

Austin precinct gives 292 against the Constitution, for it none. The *Record* shouts:

Hurrah for Austin! She deserves praise! There were upwards of thirty negroes registered in this precinct, but they chose to cast their votes as did those whom they think their true friends.

From the Searcy *Record* of the 21st we learn of the killing of Jordan A. Ball and his nephew, Charley Ball, on the previous Friday, by Ben Bradley, Jr. The latter was under the influence of liquor, and imagined himself insulted. He escaped after committing the deed. They were returning from the election, and Bradley, inflamed by liquor, became furious at an altogether imaginary affront. First shooting the uncle, an estimable, inoffensive gentleman, he pursued the nephew, and shot him five times before he fell from his horse. A large reward will doubtless be offered for the apprehension of Bradley.

Melancholy Accident.

On the evening of the 20th inst. Judge Ebenezer Starnes, of Augusta, Georgia, accidentally shot himself with his fowling-piece, the gun being prematurely discharged, and lodging the contents in the left side of the head, producing instant death. The *Chronicle* says of him:

Upright and manly in his intercourse with his fellow-men—warm hearted and benevolent in his feelings—sincere and truthful in his affections—of incorruptible integrity and virtue, his death has left a void in our community which cannot be easily filled. As a lawyer and jurist Judge Starnes stood in the very first rank of his profession. Warmly attached to the duties of his whole life, he has been devoted to its study, and practice.

—James Devers and Andy McGuire, confined in the jail at Richmond, Ray county, Missouri, on the charge of bank robbery and murder, were taken from jail on Tuesday night of last week by a gang of unknown men, and hanged.

ARKANSAS SIDE-ELECTION.

The Arkansas negroes and white Radicals held a side-show not provided for by the reconstruction acts and supplementary laws, on the same day on which the election on the Constitution washeld. They voted for Governor, members of the Legislature, and other State officers. The Democrats and Conservatives took no part in the election, not recognizing it as valid, for the reason that a proposition had been made in Congress to provide for such election, which was rejected. The Constitution now being rejected, will the Legislature meet, and will the Governor claim his office, under a Constitution which has been voted down by a majority of the people? Nothing is too infamous for Radicalism. Therefore we should not be surprised to see the persons chosen at this bogus election declared by Congress to be the Provisional Government of Arkansas. Such is the last dodge with regard to Alabama, as provided for in Thad. Stevens' bill; such is the last refuge of the scoundrels who are determined to drive the people of the South to the last stage of oppression, injustice and wrong. In Alabama, it is true that the Constitution was voted down by its opponents staying away from the polls; but that was the method provided for its rejection by the reconstruction acts themselves. In Arkansas the glorious Conservatives of that indomitable State have gone to the polls in person, and put their veto on the Radical infamy. But in both cases the Radicals are determined to rule by force or fraud until there shall be a general uprising in the Northern States, to set the seal of condemnation upon their acts, and make an end of their atrocious rule.

WASHINGTON.

WASHINGTON, March 27.—General Meade's report of the recent election in Alabama, for a constitution in that State, has been received at Army Headquarters. The result is the same as that transmitted to Congress recently, showing the defeat of the constitution.

The usual Cabinet session to-day lasted a little over an hour. All the members were present, including Gen. Thomas. Nothing unusual occurred.

Mr. Black says that some parts of the various published statements, as to why he declined to act as one of the President's counsel, are mere speculations. The reason why he refused to be retained, was that it was impossible for him to defend the President, if the President sustained the Secretary of State in the Alta Villa case, and he was well satisfied that the President did sustain the position of Seward.

The conference report was adopted to-day on the joint resolution directing that certain moneys now in the hands of the United States Treasurer, as special agent of the Treasury Department, to be covered by warrants in the United States Treasury, limits the sum allowed to the Secretary of the Treasury, for contesting suits, to $75,000.

The Senate committee on appropriations reported to-day the following amendment to the Naval Appropoalation bill, a proviso requiring that the unexpended balance, or moneys derived from the sale of public property, which may remain unexpended next July, to be covered into the Treasury, is stricken out, as is also, the provision that Civil Engineers, Naval Storekeepers, and Master Mechanics of the several Navy Yards, shall be appointed by the President, from civil life and not from the navy. The appropriation for the pay of the Marine Corps is reduced from $875,000 to $170.000, and that for provisions for the same corps from $150,000 to $100,000, and for the transportation of officers and recruits for the same from $20,000 to $12,000. The amount appropriated for the payment of mechanics and laborers, and for the support of the Department of Steam Engineers and Naval Academies is reduced from $7000 to $8000, and the amount for barracks made in the navy yards from $6000 to $3900. The following appropriations are struck out: Libraries for vessels, $4500; for salaries of deputy clerks, at the naval observatories, $4000; for a naval labratory, $20,000; for repairs of the Marine Barracks at Washington, $50,000. The pay of Professors at the Naval Academy is increased from $3000 to $7000; and that for the Governess of the Naval Visitors, from $1000 to $2000. There is also an amendment to authorize the enlistment of 1200 apprentices and boys, in addition to the 8000 seamen, landsmen and mechanics authorized by the bill to be employed in the navy.

CONGRESSIONAL.

SENATE.

WASHINGTON, March 27.—The bill supplementary to the National Currency act was taken up, and Cattell spoke in its support, and moved to amend the bill by inserting in the first section as follows: "Nor shall any bank located in said cities loan to bankers or other persons engaged in stock speculations, any portion of their funds." He then suggested that as this bill required consideration, it be laid over, and, on the motion of Morrill, of Maine, it was done.

A discussion then ensued as to whether the Senate should take up the Union Pacific Railroad bill, as desired by Howard, or the Naval Appropriation bill, resulting in the latter being taken up, and a discussion followed on the amendment to strike out the provision making the Navy Yard employees subject to appointment by the President, with the consent of the Senate—Fessenden and Johnson advocating it, and Sumner, Wilson and others opposing it. The proviso was stricken out by a vote of 23 to 8.

The other amendments were agreed to. Pending the final action on the bill reported by the Conference Committee, is the bill in regard to placing into the Treasury the proceeds of captured and abandoned property, and the bill to relieve certain manufacturers from internal tax, were presented by the Clerk of the House with the announcement of the concurrence of the House, and at the instance of Sherman, the latter was immediately taken up, and he explained that the Senate's amendments had been substantially agreed to, and also explained the nature of the House amendment, punishing whisky frauds by fine and imprisonment.

After some discussion the reports went over until to-morrow.

Wilson offered a resolution, which was adopted, providing for sending the bill which was passed over the President's veto last evening, to the Secretary of State, for promulgation, and the same to be signed by the Secretary of the Senate and the Clerk of the House; and without further action on the Naval Appropriation bill, adjourned.

HOUSE.

The morning hour was occupied with business appertaining to the District of Columbia.

Subsequently Boutwell, from the Reconstruction Committee, reported a resolution calling on the Secretary of War for copies of all reports made by Gen. Meade to Gen. Grant, relating to the election in Alabama, which was adopted.

The Speaker laid before the House a message from the Senate communicating the President's veto of the bill amending the judiciary act, and its action thereon. The veto message was thereupon read, and the speaker stated that the question was, "will the House, on reconsideration, agree to pass this bill?" After a short debate, Wilson moved the previous question, and under its operation the bill was passed over the veto—yeas, 112; nays, 34. A strict party vote. The Speaker then proclaimed that the bill had become a law, it having passed both Houses by the Constitutional majority, notwithstanding the President's objection.

The Conference Committee's report on the bill to convey into the Treasury the proceeds of the sales of captured and abandoned property, was made by Washburn, of Wisconsin, and agreed to.

The Conference Committee's report on the bill exempting certain manufactures, was presented by Schenck, to the effect that the House recedes from its disagreement to the Senate's amendment about contracts for machinery for the Government; and that in reference to drawbacks, none are to be allowed after the first of June next. In reference to the tax on sales, the tax is to be on the sales of all manufactures above $6000, the same being specially provided for. The provisions to guard against whisky frauds is somewhat altered. The report was agreed to.

Mr. Boutwell, from the impeachment managers, reported a resolution that, after Monday next, the House will postpone action on all matters except questions relating to the impeachment of the President, until the conclusion of the trial by the Senate. The resolution provoked much discussion.

Mr. Dawes represented that the Committee on Elections had four important cases to bring before the House, which would occupy much time.

After some further discussion, Mr. Boutwell withdrew the resolution, and the House adjourned.

GENERAL ITEMS.

Morton, all the members of the commission, Ben Pitman. He recovers $1000 in each case. The *Indianapolis Journal*, for conspiracy, false imprisonment and libel. The damages are laid at the sum of $500,000—a modest sum!

—On Monday last Wm. McCormick, agent of the Illinois Central Railroad, at Danforth, seventy-five miles from Chicago, was beaten to death by a man named Drake. The affair originated about a bag of wheat.

—Franklin Leverett was waylaid on a road near Shady Dale, Jasper county, Ga., a few days ago, by a negro man, shot twice, had his throat cut, and then thrown into a mill-pond. Leverett was about twenty-two or twenty-three years of age.

—A notorious negro burglar, named Bill Davis, has been arrested and lodged in jail at Atlanta. Since the war he has served one term for stealing, and had just got out of the chain gang for similar amusement. Within a week he had robbed an old lady of $27, watches and jewelry, and he is now held to answer.

—About two months ago a negro committed an outrage on the person of a Miss Parker, of Jefferson county, Georgia. He was captured and burned to death by the infuriated people, both black and white—those of his own color applying the torch. A squad of soldiers was sent from Atlanta and arrested eleven white men to answer, and they were taken to Atlanta for trial: Dr. Gervin, Robt. A. Diehl, George Robinson, R. A. Goodwin, Thos. Moxley, R. J. Pannel, G. W. Quinlan, W. A. Workers, Joseph Parker, (uncle of the lady), W. A. Tomkins, A. J. Roberts.

—A fire on Saturday night, in the warehouse of Messrs. Creighton & Morrison, Canada, an explosion occurred, killing seven men. Cause unknown. Creighton is under arrest. Loss, $30,000.

—The Ticker system in the impeachment trial originated, it is said, in a stampede in the Committee on Rules, caused by a report that some of Mosby's men were intending to visit the galleries during the trial and throw down a can of glycerine among the Senators.

—Thursday night two negroes, Alexander Sharp and Frank Mitchell, quarreled in a cabin near Bartlett, about some trivial matter, and the former strongly remonstrated against epithets the other had applied to him. Mitchell at last went into an adjoining room, procured a pistol, leveled it at Sharp and fired. The ball entered the center of the forehead, inflicting a wound which proved fatal Friday morning. Mitchell escaped.

—Twenty-five divorces were applied for and twenty-one granted by the Supreme Court at its February term in Windsor county, Vermont. In delivering the judgment of the court in one case, Judge Barrel remarked, "My associates think, from the evidence, a divorce ought to be granted, and I think so too, from what I know of the parties. I do not think these parties ought to be yoked up together any longer any more than any other cattle."

Death of an Editor.

Francis A. Dallam, formerly editor of the Quincy (Ill.) *Whig*, died at his residence in Warsaw on the 18th inst., from the effects of an overdose of laudanum. He was a sprightly and versatile writer, but addicted to Radicalism. Austin Brooks, of the Quincy *Herald*, and he ought to know, says "as a citizen and neighbor, he was all that could be desired." At the time of his death he was editor of the Warsaw, Ill., *Bulletin* which he established about a year ago. He leaves a family that he loved dearly, and that will be deeply distressed at his untimely departure and their own sad, irreparable bereavement.

—The Clarksville *Chronicle* says: The Radical who is running against Judge Harry was a Federal officer and resigned in disgust because Lincoln set the negroes free. He afterwards made speeches for Gov. Helm in Kentucky, but has since recreated and is now as black as a dinner pot.

—A Washington correspondent says, A few days since a Radical Congressman from Pennsylvania, had to leave the dining room of his hotel. The waiter refused to serve him and his lady. Reason: because the lady aforesaid was a female of the town.

MEMPHIS & CHARLESTON R. R.
Double Daily Trains Resumed.

TRAINS WILL LEAVE MEMPHIS AS follows:
Mail Train, 12:45 p.m.
Express Train, 8:00 p.m.

Railroad time is 30 minutes faster than city time.

The 12:45 p.m. train reaches Lynchburg at 8:10 a.m., Richmond 6:30 p.m., Baltimore 9:05 p.m., Philadelphia 7:22 a.m. and New York at 5:42 a.m.

The Memphis and Louisville Railroad Line advertises arriving in New York "7 hours and 40 minutes in advance of any train leaving Memphis by other routes." This assertion might induce the belief that this time is fast enough, when in fact is their trains start nearly six hours earlier than the "other routes." No advantage in this "7 hours and 40 minutes" line. The 8:00 p.m. train and Louisville train leaves Memphis at 7:00 a.m. and arrives in New York at 8:20 a.m.—starting in the afternoon and arriving in the morning—an advantage the business man will appreciate.

The 12:45 p.m. train also connects at Decatur and Nashville so closely as to arrive at Louisville at the same hour as the evening train via. Clarksville and makes the same New York connections.

Time via New Orleans and Grand Junction to New York 5 hours quicker than by "any other route," and to Nashville via, Decatur 30 hours, and Louisville and quicker than via Humboldt. Both trains connect at Decatur with Nashville and Decatur Railroad and at Chattanooga with Western and Atlantic R. R. Sleeping Cars on Night Trains.

SPRING MILLINERY.—Ladies wishing cheap hats or bonnets of the very latest styles should call at Misses Quinlan's, No. 240 Main street, corner of Jefferson. mh28 2t

REMEMBER the great auction sale of fine clothing, cloths, cassimeres, vesting and gents' furnishing goods, at Reid & Bro.'s, 15½ Jefferson street, to-night at 7 o'clock.

A HEAVY LOAD.—The towboat Alps arrived at this port yesterday, from Pittsburg, having in tow barges containing two hundred and fifty thousand bushels of coal, for the enterprising and reliable firm of Bigley, Mellersh & Co.

STEALING GRUB.—The residence of Col. Jesse Forrest, Union street, was visited by some thieves shortly before daylight yesterday morning, and a lot of valuable kinds of eatables were confiscated. So quietly was the job executed that the family was not aroused, and the thieves got off with the grub.

EMBEZZLEMENT.—Mr. Justice Black yesterday bound Deputy Constable J. H. Fisher over in the sum of one thousand dollars for his appearance at the next term of the Criminal Court, on a charge of embezzling twenty dollars, which he had collected for John Devan.

JOE LOCKE.—The fashion and sporting papers, latest dailies and illustrated weeklies, together with all the magazines for April, have been received by Joe Locke, 22 Jefferson street. Joe has also constantly on hand a choice selection of novels, and all articles in the stationery line.

BIBLE SOCIETY.—A very neat and well gotten up pamphlet, containing the last anniversary exercises and report of the Memphis and Shelby County Bible Society, has been laid upon our table. The very able address delivered on the occasion, by the Hon. John W. Clapp, is published in full. It was printed by Chamberlin & Co.

BOVINES GONE.—The stock thieves seem to have been unusually busy on Thursday night and yesterday morning. Mr. J. M. Provine, who resides on Orleans street, was unfortunate enough to receive a call from them. The consequence was that Mr. Provine was the loser of two very valuable milch cows. They are probably slaughtered by this time.

HOUSEBREAKING AND HORSE-STEALING.—The house of Mrs. Seymour, about two miles from the city, on the Poplar street road, was broken into on Thursday night, and some small articles stolen. The thieves then forced the stable door, and rode off two horses. Two white men, named J. H. and W. E. Carmichael, were arrested on the charge and taken before Justice Daley, who fully committed them for trial at the next term of the Criminal Court.

STOLEN AND RECOVERED.—Two very valuable horses were taken from the stable of Capt. Wiggs, on Union avenue, near Central Point, on Thursday night. Immediate information was given to Col. Beaumont, who detailed McCune and Hastings to hunt them up, which they did very speedily, securing the horses and thieves before they got out of town. By midnight Capt. Wiggs was again in possession of his property.

A WIFE WHIPPER.—This class of brutes, in human form, are not yet extinct in the community. One of this class, Pat Butler, charged with whipping his wife, was fined twenty-five dollars for indulging in that pastime) in the police court yesterday morning. A simple fine is not punishment enough by a good deal for such fellows. Some more severe mode of punishment should be dealt out to the cowardly scoundrels.

CAUGHT.—A negro who gave his name as Henry McFarlane, yesterday handled up some groceries and filled his pockets with can fruit, out of the stock saved from the fire on Promenade street, and started up town. Chase was given. The thief went towards Washington street, still pursued. When he reached the alley between Front and Main, he threw the plunder away, but too late to save himself. A negro boy, porter at the Varieties Theater, laid hold of him, and received a severe knock, and both fell, but the boy held on till the Police came up, when, of course, McFarlane was taken to the stationhouse.

PERSONAL.—We were pleased yesterday to meet in our city, Col. John M. Harrell, of Little Rock, an able and eloquent champion of the Conservative cause, who has just completed a thorough canvass of the State and whose labors and exertions have been rewarded with a decided negative to the infamous engine of oppression, called a constitution, which the white and black Radicals of that State have endeavored to foist upon the people. Col. Harrell informs us that the majority against the constitution will reach about 8000. We were glad to see the Colonel looking so well after his arduous labors. He is *en route* to the Crescent City, for which he departed yesterday evening on the Grenada cars.

Col. Jim Trezevant, of the old First Louisiana, but now the traveling agent of a well known Louisville publishing house, is in our city on business. He has been canvassing the State of Arkansas.

We had the pleasure of meeting Mr. D. J. Desmoine, business manager of the Little Rock Theater, who arrived yesterday on the Liberty. Mr. Desmoine has succeeded in securing the services of part of the New Memphis Company, which, in addition to the array of talent already engaged, will give the citizens of Little Rock a splendid troupe.

FROM HELENA.

UT HOMO EST, ITA MOREM GERAS.
HELENA, March 25, 1868.

Editors Memphis Appeal:

Night before last, Gen. Hindman, of this city, met Powel Clayton, the late leader of the Kansas jayhawkers, and the would-be Governor of Arkansas, in debate at Miles Hall, and so bedeviled, used up, confused, confounded, and utterly annihilated the fellow, that the little decency left in the carpet bagger of the Fifth Kansas at once took flight, and the "border ruffian" shone out in all its native brilliancy. This was abundantly manifest last night, when pursuant to agreement of the night before, the debate was to have been, and was continued by Col. Cameron (late of the Ninth Illinois), the champion of American civil liberty, and the malignant and cold-blooded Brooks, the chamelion of negro supremacy.

The place of meeting was changed from Miles' Hall to the Market place, and we fear there is too much ground for the suspicion that it was intended with malice prepense, by the lessee of the Hall to have the scene of a bloody riot, the beginning of their long wished for war of races in Arkansas. With a spirit of entire fairness actuating our pen, with no party interest, for we be ong to none, to subserve, with no malice, either express or implied, to remit to our thoughts, we repeat, that from the words and actions of Clayton and his understrappers last night, we have sufficient evidence to convict him and them of a deliberate attempt to instigate a riot, to involve our little city in the terrible evils of a war of races, to expose our women and children, our manly and young men to the beastialist and most inbrutted passions of a horde of black barbarians, ignorant and excited devils, instigated to violate by the word and example of Clayton and his scoundrel followers, whites in race as they are white in livery. A glance at the facts will show clearly the evidence substantiates this charge. The banners of the loyal league, early in the day of yesterday, had carried the information to the plantations for miles that there was to be "speaking," and they must come, and come armed and prepared. Around Helena, and by nightfall, fully one thousand negroes, armed to the teeth, had entered the city and surrounded the place in the market square designated for the speaker. These poor dupes of Yankee cunning, these poor tools of the ever-ready to take advantage of the ignorant, blind, filthy appearance and miserable in fact, with faces in which were written the murderous instincts of the Loyal League, these pitiable victims of the political Jeremy Diddlers of New England, the creeping vermin of the "preaching" ilk,

"Who steal the livery of heaven to serve the devil in,"

and the dis-solved jayhawkers, who converted the sword of the soldier into the stiletto of the robber and assassin, these poor slaves presented a fair picture of Radicalism, as well as a sad theme to the moralist and philanthropist. Ready and willing only to obey their new masters, without desiring or being able to comprehend why or wherefore. There they were, ready to laugh long and loud at the insipid twaddle of the lunatic Brooks, or to yell like devils at the dull and addle-pated insolence of the Kansas jayhawker, Clayton. Poor fools! poor Africa! poor Ethiopia! Never and forever "a servant of servants shall ye be." The curse of Canaan is upon you, and unless you fall by the swift and telling sword of the men of the South, which is very likely your fate, you will be to the renegade, the outcast and the proletarians of New England, who "lurk about most like rats" in the smooth body "politic of the South, the vile, slavish, debased and vicious tools. At 8 p.m., Clayton and Brooks entered the crowd, and were invited by the chairman of the meeting, an ex Federal soldier, by the way, on the stand, Gen. Hindman announced the terms of the debate, which on naturally the night previous, the main feature of which was that the opening and close of the debate belonged to the Conservatives. Colonel Cameron starting the ball. The announcement was no sooner made than Gen. Clayton, so called, the Radical candidate for Governor of the State of Arkansas, that arch commander of those Kansas freebooters, scoundrels and thieves, known in the sorrowful memories of the men and women of Arkansas, whose personal effects they stole, and whose homes they gave to the flames, as the infamous Jennison,

FINANCIAL AND COMMERCIAL.

OFFICE OF THE DAILY APPEAL,
MEMPHIS, March 27, 1868.

The increasing scarcity of exchange has caused our banks to stiffen up their selling rates to-day; ½c premium is now the prevailing rate on all points North and South; buying at ¼c discount, and in some cases our banks buy at ½c discount, in order to alviate the necessity of shipping currency to meet their drafts.

Gold opened in New York to day at 138c. At noon it had advanced ⅛. The usual small amount of sales took place here. The aggregate transactions in gold during an entire week would barely make a respectable shipment. The demand is good and very much exceeds the offerings. Buying at New York rates and selling at about 1c advance.

City Scrip is firm. Speculators who want to buy at 65 to 66c are unwilling to sell at less than 68 to 70c, while small warrants, running from $100 down, are held at higher rates. The tendency is to better rates.

County Warrants are in fair request at 50 to 52c buying. Selling at 55 to 60c, as to amount.

Police Scrip is firm at 85 to 86c buying. Selling at 88 to 90c.

Last year's earnings of the Illinois Central Railroad, inclusive of the Dubuque and Sioux City Line, amounted to $9,967,028 15.

The *Tribune* has declared three dividends in the last three months of $200 each per share—equal to forty per cent. per annum on the estimated value of the capital stock at $600 000.

We learn, says the New York *Mail*, that very little cotton will be planted at the South this season, and well-informed brokers predict that the product will not exceed 1,500,000 bales.

The Shreveport *Southwestern* of the 20th says: Making a short trip into Texas, we found the crops forward, freedmen working unusually well, farmers energetic and hopeful, and every present indication favorable to good crops this year.

The Liverpool cottor market to-day was firm at the opening—Uplands, 10¼d; Orleans, 10¼d. At noon there was no change—to arrive, 10⅜ to 10¼d. At the close the market was buoyant—Uplands, 10⅜ to 10¾; Orleans, 10⅜ to 10¾; sales for the day, 17,000 bales; week's sales, 70,000; for export, 11,000; to speculators, 10,000; stock, 391,000; of which 228,000 is American. There is 332,000 bales afloat, of which 150,000 is American. The New York market opened with a good demand and prices tending upward. At noon the demand was active at full prices—Low Middlings, 24c; Middlings, 25½c; Good Middlings, 26½c; Good Middlings, 26¾c. Prices advanced at 1 p.m., with a good demand—Low Middlings 25c; Middlings, 25¾c; Orleans, 26¼c; Good Middlings, 26¾c; the demand was active at the close at full prices—Uplands, 26¼ to 26c; other grades unchanged. The estimated receipts at all United States ports for the week ending to-night are 45,000 bales, against 60,000 bales last week. Our market was quiet, with small offerings. Prices have gone up with each dispatch from the East, until at the close Middlings could not be bought at less than 24 to 24¼c. Sales were limited to a few scattering bales. The market closed with an active inquiry and holders firm.

THE MEMPHIS APPEAL

FOR 1868.

ALBERT PIKE
EDITOR.

JNO. AINSLIE
Cashier and Business Manager.

THE MEMPHIS APPEAL, NOW IN ITS Twenty-Ninth Year, is offered to the reading public of Tennessee, Mississippi, Arkansas and Alabama, it is believed, with superior inducements to any that have ever been presented to its numerous and rapidly increasing patrons. The stagnation in financial movements, the almost total cessation of trade, the paralysis in agricultural operations and the anomalous condition of political affairs, instead of counselling to inaction and discouraging enterprise and energy, should arouse our people to redouble their exertions, to extend their enterprise, and to rely with greater confidence and higher resolve upon their own indomitable and unquenchable courage and purpose. If there ever was a time when the people should be

Fully Aroused and Wide Awake,

it is in such an emergency as the present. The temptation is strong to despair, and to surrender to the influence of fear and an almost overwhelming oppession. If we listen to the voice of the Siren and give up to despair, we are lost—irrecoverably lost. It behooves one and all to be up and doing, "with a heart for every fate, still achieving, still pursuing," until the book of our destiny shall be closed. We should hear of no compromise to make with the opposing genius of decay and destruction, which is seeking to drag us down. We should meet the enemy at every stage and wage an aggressive warfare upon him, until we expel him from the land. Poverty comes upon our beloved land and upon our patriotic people "like an armed man." Like "an armed man" we must assail him—with the same will, determination and courage with which he marches upon our homes and hearthstones. In such an emergency

THE NEWSPAPER

Is the great and potent weapon with which we must carry on the campaign. We might as well at once surrender to the foe as to abandon this agency, which is, in fact, the artillery arm, both for defense and attack, in such a warfare. This great moral and political agent can only be rendered efficient and successful with the countenance, support and material assistance of the people. Never was there so cheap an aid employed to defend the right and to crush the oppressor. A people who are not willing to sustain an auxiliary which may be so potently used to defend their rights, and which can be employed at so inconsiderable an expense, are in the last stage of decrepitude and decline. And so an individual, who may be

FOUND TO DECRY THE PRESS,

Which in all free governments is known to be the most powerful lever, in the service of good government, must be either to imbecile for a freeman or too corrupt to receive the confidence and respect of his countrymen. It therefore happens that the people who sustain the Press with the greatest liberality and who rely upon its free utterance, with the highest confidence in its power to elicit the truth and defend the right, are always the freest and most independent people.

THE APPEAL FOR 1868

Proposes to meet the great questions which will arise, for the restoration of constitutional rule, with the weapons of

REASON, TRUTH AND HISTORY.

Stern, inflexible principle will be its guide in the future, as it has been heretofore. It is emphatically

FOR A WHITE MAN'S GOVERNMENT,

For the Constitution as it was, and for the enforcement of the Laws made in pursuance thereof. Its political tenets will not be subject to change by every breeze of popular revolution. It will adhere to the landmarks of the past, which is the only sure guide for the future. Its

COMMERCIAL AND FINANCIAL

Department will keep pace with the wants of the public and the demands of business.

ITS LOCAL DEPARTMENT

Will chronicle all important events transpiring around us.

ITS NEWS

Will be carefully selected, with a view to lost its readers in all the current events of the day.

ITS RIVER DEPARTMENT

Will give with fidelity such items as may be interesting or important to business men, and those who are depending on navigation for their movements or profit.

ITS LITERARY CHARACTER

Will not be neglected in the hands of those who conduct it. And as a

Piano, Organs and Sheet Music.

It will be the constant effort of the publishers to render it a welcome visitor to every family, and to merit a liberal support.

MISCELLANEOUS.

THE NATIONAL
TELEGRAPH
COMPANY.

A new enterprise, to be known as the National Telegraph Company, has been organized with valuable franchises conferred by a recent act of Congress for the purpose of establishing Trunk Lines of Telegraphs on all the principal railroads and mail routes in the United States. The stock is to be issued upon the same principle as that of the Merchant's Union Express Company, which recently commenced operations. The design is to interest the entire business community in the enterprise. This is done, not so much to dispose of the stock as it is to secure the business of the country through which the lines pass.

The Capital is to be

$10,000,000,

In 100,000 Shares, of the par value of

$100 PER SHARE,

But the actual amount to be paid in cash is

$35 Per Share,

And this amount is to be paid as follows: One per cent. of the par at the time of subscribing, and no more, until the entire capital has been subscribed, when calls to be made by the Board of Directors; instalments not to exceed five per cent. per month. When thirty five per cent. of the par value of the shares has been paid, certificates of stock will be issued. This will give the company a paid up

CASH CAPITAL OF $3,500,000,

Which will be sufficient to duplicate lines to all or nearly all the paying points reached by the present monopoly.

The present Telegraph Companies of the country have been consolidated into one huge monopoly, and are now earning over SIX MILLIONS OF DOLLARS per year, or over one hundred per cent. on the actual cost of their lines, their present capital having been watered over ONE THOUSAND per cent.

THE NATIONAL TELEGRAPH COMPANY have a recognition from the United States Government of the importance of their enterprise, with a grant of the most valuable franchises ever conferred upon a telegraph company. No competing line has ever had the right now granted by Congress to this company to construct and operate lines over every RAILROAD and MAIL ROUTE in the United States. The position of this company differs from that of any company ever before organized. The question of the RIGHT OF WAY IS FOREVER SETTLED.

The stockholders of this company cannot be sold out or TRANSFERRED to any other company. The act of Congress under which this company has been organized, prohibits any transfer of the franchises granted.

CALLS---HOW TO BE MADE.

One per cent. of the Stock will be required on subscribing, and subsequent calls, not to exceed five per cent. per month, will be made by the Board of Directors, from time to time, as may be necessary, to supply funds to construct and equip the lines; but no calls will be made after the one per cent is paid, until the ENTIRE CAPITAL STOCK shall have been subscribed.

ACTUAL CAPITAL REQUIRED

The Company confidently believe that thirty-five per cent. of the Capital Stock will construct and fully equip

25,000 MILES OF WIRE,

Which will connect all the commercial centers and important places in the United States. This opinion rests upon the most reliable estimates and responsible offers to construct and equip the lines.

The National Telegraph Company is organized under the Laws of the State of New York, and franchises conferred by an act of Congress, approved July 24, 1866.

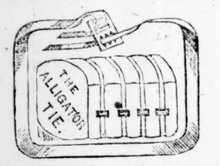
FASSMAN'S IRON TIES
—FOR—
COTTON BALES.



THE undersigned have made extensive arrangements to supply the demand for these Ties the present season.

In addition to the FASSMAN DIAMOND TIE (of which, so extensively used heretofore, they now offer his ALLIGATOR TIE, with teeth so arranged as to firmly clamp the loop when the pressure is removed from the bale, and hold it without slipping.

Great pains have been taken to secure the best quality of iron.

These Ties are so simple in their arrangement that they can be applied by any one, bales of any size, with the same facility and expedition as rope. In strength, security and facility of application, they will compare favorably with any yet introduced.

The silver badges of Iron Ties are now generally recognized; but it is deemed not out of place to call the attention of those interested to the very emphatic recommendation of Cotton dewriters, Steamboat Captains, and Owners and Agents of cotton presses and Sailing Vessels, recently published in the newspapers in New Orleans.

MEMPHIS APPEAL.

BY TELEGRAPH.

Noon Dispatches.

NEW YORK, March 27.—Further advices by special dispatches to the *Herald*, from Mazatlan, state that the revolutionists now hold their places.

Gov. Rubes is hemmed in, with his headquarters in the mountains at Copalo, with 10,000 men.

Corona is denounced by the revolutionary Gen. Toledo.

The San Luis Potosi Federal regiment has proclaimed against Juarez in favor of Ortega. They were immediately put down, and it is reported that some of the officers have been hung. Gov. Vega, when last heard from was the guest of Gov. De La Vega, of Cotuna, and his friends refused to allow him to proceed to the City of Mexico, as ordered by Federal authority.

Martinez attempted to stop Davolos and his troops from leaving Mazatlan for Guyamas, which led to several skirmishes and resulted in the scattering of the few troops Martinez had.

The gunboat Saginaw left Mazatlan for Sitka on the 17th inst.

Advices state that Tamaulipas continues to expel foreigners.

The British Consul at Vera Cruz denies any connection with smuggling on the steamer Danube.

The estimated revenues for next year are twelve millions; expenditures, twenty-one millions.

The Legislature of Vera Cruz has repealed the poll tax law.

The Deputy from the State of Puebla made a motion that Congress be requested to censure the conduct of the Federal troops at Accatlan, in said State, as their interference to prevent the disorder, which was insignificant, had not been solicited. The motion was lost.

The company who are to build a telegraph between Colima and Mezinello, are awaiting material from California to Guadalajara.

The reported conspiracy against Gen. Corona, turned out to consist only of five officers, who held a meeting to merely express their grief at Gen. Alatorre, who had provisionally entrusted the military command in Yucatan to Col. Corez.

WASHINGTON, March 27.—The Secretary of State sent to the House to-day a report from Elliott C. Cowdin, one of our commissioners to the Paris exposition, on the subject of silk and silk manufactures, which say it is as easy for the United States as it is for England to immediately supply herself with raw silk. On reaching New York, by way of California, it would be distributed to not only supply our own manufacturers, but would be distributed to foreign countries. More especially may America be encouraged to prosecute the industry in view of the exemption of our continent from the malignity among silk worms now prevailing in Europe.

No action has yet been taken on the nomination of Col. Burnside as Second Auditor of the Treasury. It is understood that the movement for his appointment originated with his Western friends.

Ex Senator Foster has been urged by his friends to accept the appointment as one of the Judges of the Court of Claims, to supply the vacancy caused by the death of Judge Wilmot, and they say he has consented to do so.

CINCINNATI, March 27.—Samuel Shotwell, recently from Memphis, attempted to commit suicide yesterday evening by shooting himself. The ball entered the left breast. The wound will probably prove fatal.

KAVANAGH & DECKER'S
BILLIARD TABLES

THE most reliable Cushion used on Billiard Tables is the

Cat-Gut Cushion,

Manufactured by KAVANAUGH & DECKER, and patented December 18, 1866. (See Scientific American, Vol. 16, No. 1).

It is the only Cushion that possesses all the qualities essential to a Perfect Cushion. It is the most elastic and most durable Cushion ever offered to the billiard-playing public, as is abundantly proven by the great demand for it since its introduction. The peculiarity which distinguishes the Cat-Gut Cushion and renders it superior to all others, is the tightened cord of cat-gut which overlies the face and edge of the rubber and running the full length of the Cushion, which prevents the ball from bedding into the rubber and jumping from the tables. The addition of the cat-gut cord also adds much to the elasticity of the Cushion.

The Cat-Gut Cushion has already been applied to over 3000 tables, which are in constant use. It can be applied to tables of any make, for $75 per set.

Kavanagh & Decker's Factory, at the corner of Centre and Canal streets, N. Y., is the most complete of its kind in the world. The machinery is of the most improved character, the number drying room the largest in the United States, the material used the best that can be purchased, and the workmen all thoroughly skilled.

Billiard Cloth, Balls, Cues and Trimmings, all of the best make, constantly on hand.

Kavanagh & Decker are the only agents in the city for the sale of Billiard Tables, except by competent authorities to be the best Cement ever used.

Full Size Tables cut down for $100.

Our Latest Improved
NEW SCALE PIANO-FORTE.
GROVESTEEN & CO.,
499 Broadway, N. Y.,

THESE instruments, after the most flattering testimonials from the first Pianists in the country, who, at our solicitation, have tested them in the severest manner possible, have been pronounced THE FINEST AMERICAN PIANO-FORTE MADE IN THE WORLD.

It has always been our policy, during the *thirty-four years* that we have manufactured Pianos, *twelve thousand* of which are now in use in the United States and Europe, to give the finest instruments at the lowest cost. Our superior facilities enable us to offer them from one to three hundred dollars less than any other First Class House.

The tone of these instruments are remarkable for their peculiar sweetness and great brilliancy, never losing their quality when forced to its full volume capacity, and in other respects retaining its positiveness, does not destroy the middle and upper registers by mingling with them its disagreeable qualities. The great beauty of tone being equally delightful to the unpracticed and to the most cultivated ear.

They are also offered in a new scale of Piano, finished in the most superb manner, *with four full round corners front and back*, heavily carved legs and Lyre serpentine Base richly moulded, and each instrument is fully warranted for five years. sep5 d&wly
